Lindocat ADVANCED

FIRST CHOICE MATERIALS FOR THE LATEST GENERATION OF CAT LITTERS.

Laviosa research has created
Lindocat Advanced: an innovative
range of **clumping litters** made from
100% natural materials.

The most advanced technology has
been used for the well-being of both
your cat and the environment.

SUPER PREMIUM

EXTRA STRONG
CLUMPING:
ZERO ODOR,
ZERO WASTE.

Lindocat Advanced Super Premium, in the classic fragrance-free version or scented, is the ideal litter for those who are looking for a product with **outstanding performance**. It consists of a mix of high-quality white bentonite and grey bentonite: a **superior quality** litter that combines exceptional odour control properties with **extra strong** clumping power.

SUPER PREMIUM MULTI-CAT

MULTI-CAT FORMULA FOR MULTI-CAT HOUSEHOLDS.

Thanks to its innovative formula and special composition, Lindocat Super Premium Multi-cat is the latest generation of litter that allows multiple cats to use a single tray. Added with **sodium bicarbonate**, it is specifically designed to effectively neutralize the bad smells of the litter box that make it difficult for cats to live together. It also offers an **extra strong** clumping power that guarantees fast cleaning and less product waste.

PACK 10L

PALLET 100

8 006455 001366

- ZERO ODORS
- EXTRAORDINARY AGGLOMERATING POWER
- EASY TO CLEAN

MULTI-CAT +

MULTIPLE CATS, ONE LITTER.

Thanks to the special **baking soda** formula, Lindocat Multi-cat is the ideal litter for those who have more than one cat in the house. A natural remedy to effectively neutralize any bad odors from the litter that can compromise cats sharing it.

Based on **white bentonite** fine-grained, ensures rapid and solid clumps, making daily litter cleaning easy while not wasting any of the product.

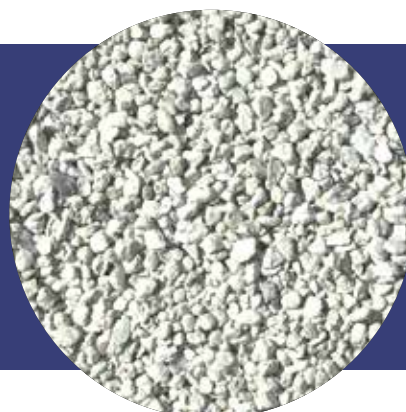

PACK 12L

PALLET 102

- IDEAL FOR MULTIPLE CATS
- WITH BAKING SODA
- LONG- LASTING

LIGHT +

ULTRA-LIGHT, HIGH AGGLOMERATING POWER.

Thanks to its **innovative formula**, Lindocat Light + is 40% **lighter** than a normal mineral cat litter, yet it has the same excellent absorbency. A factor that extends the life span of the litter thus reducing its environmental impact.

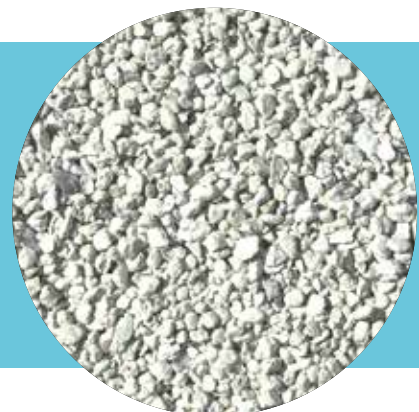

The formula with **bentonite**, gives Lindocat Light + extraordinary clumping properties, meaning you can remove just what is necessary quickly and easily when cleaning.

PACK 7L

PALLET 216

- **ULTRA LIGHT**
- **LONG- LASTING**
- **EASY TO CLEAN**

CARBON + FRESH

GOODBYE BAD SMELLS,
WELCOME PERFUME.

Made from white bentonite added with **natural activated carbon**, uses special technology to reduce bad odors by over 70% immediately after use.

Activated carbons absorb organic components of feces and urine, giving way to one pleasant **fresh clean scent**.

PACK 8L

PALLET 150

- WITH ANTI-ODOR TECHNOLOGY AND ACTIVE CARBON
- ZERO ODORS
- ZERO DUST

CARBON + MICRO

MICRO GRANULES, MAXI ABSORBENCE.

A litter consisting of **fine-grained** white bentonite, enriched with natural activated carbon.

On the one hand, the micro granules guarantee perfect agglomeration that avoids product waste, on the other hand the formula to **activated carbon** allows absorption at the molecular level of the organic components of dejections, instantly neutralizing bad odors.

PACK 6L

PALLET 165

- WITH ACTIVE CARBONS
- ZERO ODORS
- LONG- LASTING

CLUMPING +

ULTRA AGGLOMERATING,
SUPER EFFECTIVE
AGAINST ODORS.

The special structure of **natural sodium bentonite** ensures that **Lindocat Clumping +** has the incomparable ability to instantly form **ultra-compact clumps** on contact with urine, neutralizing any odors.

Lindocat Clumping + Activated Carbon and Clumping + Baby Powder increase further odour control, thanks to the effectiveness of natural activated carbon and a delicate talc fragrance. To them is added the technology of Lindocat Clumping + Low Track: the litter that does not stick to the paws, for a clean home at all times.

CONTROL +

ALWAYS KEEPING THE HEALTH OF YOUR CAT UNDER CONTROL.

Its **special microgranules** detect the **pH of the urine** and, in the presence of its alteration, change colour (from purple to blue) warning you of any possible kidney or urinary tract problems.

Its **diagnostic formula** does not use any chemicals: Control + is based on bentonite, a 100% natural clay, free of any artificial additives and fragrances. Its great **clumping properties** makes daily litter cleaning quick and easy, while not wasting any of the product.

Lindocat

PREMIUM LITTER FOR EVERY CAT AND EVERY FAMILY.

A wide range of solutions for all cat and household needs, while only using first choice raw materials.

CLUMPING LITTERS

Lindocat's wide range of clumping litters comes from the **selection of the best bentonite**, a 100% natural clay mineral. Its granules, in contact with urine, quickly form a compact clump which effectively **retains any liquids and bad odors**.

The ideal solution for those who want to manage in a practical and fast way daily litter cleaning, **reducing product waste** and extending the life span of the litter.

CLASSIC

CLUMPING LARGE GRANULES FRAGRANCE-FREE

Made of 100% bentonite, it is characterized by excellent agglomerating power and a high capacity to retain liquids and odors. Its large granules make it possible to limit the dispersion of litter outside the litter tray. The absence of scent makes it ideal for cats with a sensitive sense of smell.

SMELL GOOD

CLUMPING LARGE GRANULES WITH FLORAL SCENT

Made of 100% bentonite, it boasts high agglomerating power and effective liquid absorption. It combats odors thanks to a delicate floral fragrance that spreads a pleasant clean scent around the room. Its large granules also reduce the dispersion of litter outside the tray.

PACK 8L

BUNDLE 2

PALLET 132

8 006455 002073 >

THE ORIGINAL

CLUMPING FINE GRANULES FRAGRANCE FREE

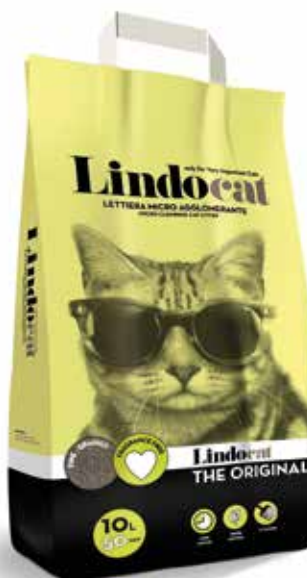

Its fine-grained bentonite gives it a very rapid agglomerating property and high absorbency of liquids and odors. The small size of the granules also mean that it forms solid clumps without wasting product. Free of additional fragrances, it is ideal for cats that do not like fragrances.

PACK 10L

PALLET 112

Lindocat

ABSORBENT LITTER

The range of Lindocat absorbent litters owes their effectiveness to the special characteristic of the clay minerals that make them: 100% natural **urbsite**, characterised by extraordinary liquid-absorbing power, capable of quickly catching and neutralizing bacteria and, consequently, bad odors.

The litter thus remains **dry and clean for a long time**, keeping the surrounding environment sanitized.

ESSENTIAL

LONG-LASTING ODOR ABSORBENT

Made of 100% ultra-absorbent urasite, it boasts a high liquid-absorbing power that keeps the litter dry for a long time. The natural ability to reduce the reproduction of bacteria combats bad odors by neutralizing them quickly and effectively.

PACK 10L

Lindocat

SILICA GEL LITTERS

Lindocat silica gel litters quickly trap urine and dry solid excreta, facilitating their removal. The special formula blocks the proliferation of bacteria and the diffusion of bad odors.

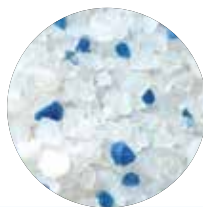

The ideal product for those looking for a **light, dust-free** litter that does not stick to the cat's paws.

CRYSTAL

ULTRA ABSORBENT FRAGRANCE FREE

It is characterized by its absorbent and dehydrating properties. Liquids and odors are immediately trapped and excrement dehydrated. Thanks to their special composition, the crystals do not produce dust and do not stick to the cat's paws, thus preventing them from being carried off the tray.

PACK 5L

Lindocip Lindorod

LOTS OF SMALL
PETS, GREAT
HYGIENE FOR
EVERYONE.

Every animal has its own litter: in addition to the specific products for cats, Lindocat has developed a range of litters dedicated to pet hygiene of small household pets, tailored to the characteristics of each species.

LINDOCIP

LITTERS FOR BIRDS BASED ON MARINE GRIT

It stands out for its special marine grit-based hygienic sand, made of shell fragments essential for a bird's health. The grit can in fact be eaten by the bird, helping the eggs to harden. Scented with aniseed, it prevents the spread of unpleasant odors and facilitates cage cleaning by quickly absorbing and drying any excrement.
